TRACK AND INTENSITY OUTLOOK

- ADA will move generally northwestward over the next 3 days. On the forecast track, ADA will pass close or make landfall over Eastern Visayas on Friday (16 January) or Saturday (17 January) early morning. It will then pass close or make landfall over Catanduanes on Saturday or Sunday (18 January). Afterwards, it will turn generally northeastward over the sea East of Luzon.
- ADA is forecast to reach Tropical Storm category within the next 24 hours. It will continue to gradually intensify over the Philippine Sea.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 AM tomorrow.
